THANKSGIVING .- To-day will be observed as a day of thanksgiving in many of the loyal States of the country, in cluding the State of Kanawha. In city the day will be observed by an almost entire suspension of business, and mos people will manfest their thankfulness in an appropriate manner. Some there are who can see nothing to be thankful for if they could see it ever so plain. Others will be thankful that they have an opportunity to drink whisky, and will avail themselves of it as abandantly as possible Many will be thankful that they have nothing to do for twenty-four hours, without any thought or care of the great moral result sought to be attained by the setting apart of the day. The sincere thanksgiv. ing may be witnessed in the houses of worship and in the families of those who

Tus soldiers up in Cheat Moun tain have built a very respectable little mountain city in which to house this winter. When the disadvantages under which the men had to labor are taken into con sideration it will appear that a gigantic work has been performed. One brigade had no tools except a few axes, one "Sesesh" auger, oue do. adze, one do. draw knife; and with this meager suppy tour thousand men had to work. The greater part of the lumber had to be brought from a distance of a half a mile, and that upon the backs of the men. It is a novel as well as a pitiable sight to see from twenty to twenty five men staggering along beneath a huge pine, and fairly dropping, when chimneys are all substantial stone structures, while the buildings are neutly roofed and "chunked and daubed" tho

MORE PRISOSERS .- The train from Cumberland last evening brought up an other batch of prisoners, twelve in num ber. Nine were received from the North Western Virginia Railroad, and are as hard a looking set of Jayhawkers as one would care about looking at. They were sent on tured by the Sheriff of Marion county, is the vicinity of Farmington, and were last night put in the Atheneum for safe keep-We did not learn the offences with which the men are charged.

BOY GOOD FOR NEW MARTINSVILLE .box of one hundred pairs of mittens were received to this city yesterday, which are to be sent to Capt Bowers' company of Wetzel Rangers, of the 1st Virginia Regiment. The mittens were knit by the patriotic ladies of New Martinsville and Wetsel county. They are made in the bes style, and of the finest wool.

As cold weather has set in, and a fires are frequently occasioned by carelessness, we would suggest that our citizen make a thorough examination of their premises, and see that chimneys, fire boards, stove-pipes, places for depositing ashes, &c., are well and safely arranged for winter use. A little timely care may

Last July, while running on the river, on a cotton boat plying between Natches and New Orleans, I was taken with Feven and Ague: For sight long months I suffered with this dreadful disease. The greater part of this time I was unable to work, and spent at least fifty dollars for different medicines, but found no permanent relief. Three weeks ago, one of my friends insisted upon my trying Barhave's Holdand Bitters, saying that a cure was guaranteed. After taking it for one week, I must say I was a sound man. Washington, Nov. 21.—The following dispatch was received to-day from Gen. McCall, dated Camp Peirpoint.

Ool. G. D. Bayard, with 700 men of the Ist Cavalry Pennsyltania Reserves, marched last night at 3 elock, with orders to proceed to Draines ille and capture a party of the enemy's pickets, understood to be there. He has last returned, at noon to-day, with 11 prisoners, having killed two and wounded one of the enemy.—Two of the prisoners are cavalry, with their bores, arms not equipments. The remainder are footnen. Col. Bayard had his borse killed and is alightly wounded, and I am sorry to report that Surgeon Aiexander and one of our men are wounded. The prisoners will be forthwith sent to dwashington.

Gov. Ladislous Ughasi, of Texas, has been appointed Cossul at Ancons, Italy. He emigrated to Texas about twelve years ago, having been spride from Hungary for his participation in the revolution, in which he took part as commander of Commor during its memorable singe. He had engaged in the callivation of vineyards successfully in Texas, but was driven thence on account of his Union sentiments.

The following hamed officers have been appointed to regelate and fix the anaber and catibre of the cannon to be mounted on casemates and barbetts at each of the permanent fortifications of the United States, and also the number and description of the guns to compose field pieces: Brig. Gen. Totten, of the Corps of Kugineers; Brig. Gen. Ripley, of the Ordannez Department; Brig. Gen. Barry, of the U. S. Volunteers; Brig. Gen. Barry, of the U. S. Volunteers; Brig. Gen. Barrard, of the U. S. Volunteers; Ch. Hunt, of the U. S. A., and Capt. Rodman, of the Ordannez Department. The board will meet at Washington at such time and place as may be designated by the senior officer, and the junior member will record the proceedings.

proceedings.

There is evidently pervading all branches of the government a far more hopeful feeling concerning a successful result of the present conflict than hereitofore, and the present conflict than hereitofore, and press will be as earnest as our own, in dicussing the circumstances attending the arrest of Slidell and Mason. No appre-heasions are entertained that the ques-tions will be productive of serious embarrassment to the two countries.

The authority to raise companies an vessels of sharpshooters, granted to Co Berdan, last September, has been revoked The companies and regiments which have already been raised will nevertheless b nustered into service, and proceed to Washington.
There is no reason to believe that Mason

and Slidell will, in their confinement, ex-perience any different treatment from oth-er prisoners, as they are all considered on an equality of treason.

All boats entering these waters will report at the first military post, and stop to proceed under military commander. Freight and baggage will be subject to careful inspection. The oath will be administered to all employees and passengers, and the plans of landing and departure will conform as near as possible the custom of the trade; but all commission and storage business must be transacted with openly avowed and reliable Union men.
